

GAL RESHEF

Delivering Results with Precision and Innovation

0544-580-190 | galsreshef@gmail.com | Rishon LeTsiyon, Israel

Seasoned Automation Engineer with a B.Sc. in Computer Science.

Expert in architecting and deploying automation scripts using TypeScript JavaScript & Python.

Out of the box thinking problem-solving abilities and team collaboration with a consistent win track record.

Experience:

NetApp | Automation Engineer | Nov 2022 - Present

- Redisigned automation scripts, significantly improving the deployment efficiency and reliability.
- Drove the integration of Testim.io with major cloud services, enhancing UI testing performance.
- Implemented E2E testing using Playwright team products, contributing to a faster 40% testing time.
- Ensured high-quality standards with API testing using Jest and Postman, lowering error rate below 1%.

Dell Technologies | Software Quality Engineer | Sep 2021 - Jun 2022

- Developed Python automation scripts to bolster the functionality of Dell's storage servers.
- Identified and resolved bugs in pre-release versions and new features, improving product stability.
- Facilitated CI/CD processes using Git, Jenkins, and Jira, and provided code reviews for team members.
- Mentored new team members, enhancing team knowledge and efficiency.

HIT Student Association | Head of Academic Division | Apr 2018 - Aug 2020

- Represented student interests in disciplinary committees and university management meetings.
- Launched targeted academic courses during exam periods, supporting student success.
- Initiated a support program for Holocaust education trips to Poland for financially challenged students.

NOVA Point of Sale | Technical Support Specialist, Tier 2 | Dec 2016 - Feb 2018

- Delivered tier 2 support and troubleshooting for a global client base, resolving multifaceted software and hardware issues across diverse product lines.
- Conducted root cause analysis to diagnose and remediate intricate system faults, ensuring maximum uptime and operational continuity for customers.

Education:

- **HiT** | Bachelor's degree, Computer Science, Major in Android App Development | 2017 – 2020
- **WIFA and Purdue University** | Commercial Pilot Training, Aviation | 2015 – 2017

Licenses & Certifications:

- Google Cloud Platform Business Professional Accreditation | Google
- AWS Cloud Quest: Solutions Architect | AWS
- Amazon FSx for NetApp ONTAP Technical Essentials | NetApp
- Commercial Pilot and Instrument rating | Federal Aviation Administration

Awards:

First Place, The Future Supermarket Hackathon | Shufersal

Second Place, Sheba Human Experience Challenge | Sheba Medical Center

Skills:

- Programming Languages: Proficient in TypeScript, JavaScript, Bash, Kotlin, and Python.
- Cloud Platforms: Daily use and integration of major cloud services including AWS, GCP, and Azure.
- DevOps Tools: Experienced with GitHub, Bitbucket, Jenkins, Jira, and TeamCity for CI/CD processes.
- Interpersonal Skills: Recognized as a personable team player who excels in collaborative environments, known for fostering a relaxed and positive atmosphere.
